

Dear Ms. or Mr.,

I am writing to apply for Software Engineer with OpenText. As an experienced software engineer with expert knowledge of computer science, I feel confident that I am the right person to help OpenText reach the next level of success.

As a graduate student at University of Texas at Dallas majored in Computer Science and Software Engineer at DevelopScripts LLC, I have solid fundamental on data structure, object-oriented design, programming skills, and a strong aptitude for learning new technologies, and a proven track record of meeting aggressive goals. My most notable skills include:

- **Software Development:** I bring over at least 4 years of experience developing software for multiple field in various environments. I possess solid knowledge of HTML5, CSS, JavaScript, AJAX, JSON, jQuery, Express.js/Node.js, MySQL.
- **Project Management:** I have been successful in providing high-level technical direction to drive projects from conception and design through QA and deployment. Experience with uniting and leading team to work together through Agile development method.
- **Communication Skills:** I am comfortable communicating with technical and non-technical employees throughout the company in order to complete projects and achieve organizational goal.

Overall, I feel that my knowledge as a programmer and my passion for new technologies makes me the ideal candidate to meet your development needs. I'd be glad to discuss my abilities and background with you in more detail. Thank you for your time and consideration.

Sincerely,

Yidan Sheng
